SUMMARY

Experienced Frontend Developer as Freelancer with 3 years of experience in developing user-friendly web applications. Proven ability to design, develop, and debug web applications to meet client needs.

EXPERIENCE

Proximate Solutions
Intern React Developer   **June 2023 - Present, USA**
• Conducted thorough code reviews and participated in regular team meetings to discuss architecture, design patterns, and improvements. Your contributions to code reviews helped maintain code quality and fostered a collaborative environment where developers could learn from each other.
• Achieved development of 5 high-performance and feature-rich applications leveraging React and Redux architecture within specified timelines and budget constraints. .
• Enhanced page loading speed by 33%, optimized user interface performance by 45%, and reduced development time for new features by 20%.

PROJECTS

IPTV Channel App (React)
MAXCO.TV • August 2023 - August 2023

• Developed and implemented an IPTV channel, increasing viewership by 45% and daily active user base by 25% on an existing IPTV platform.
• Automated the manual operation processes for IPTV content curation while ensuring compliance with terrestrial and international broadcast standards.
• I ensured that the IPTV channel and the platform complied with terrestrial and international broadcast standards. This would have involved meeting regulatory requirements and industry guidelines to ensure the legality and quality of the content being broadcasted.

Carbon Emission App (React)
Individual Client • June 2023 -July 2023

• Developed and deployed a carbon emissions calculator and dashboard using React, which enabled a reduction in emissions of 18.7% across the company's portfolio within a 5 year period.
• Created efficient algorithms to allow for dynamic and optimized data inputs and outputs, reducing development time by 40%.
• Expanded the carbon emissions calculator's capabilities to incorporate social responsibility metrics, allowing the company to track and measure its positive contributions to local communities and charitable initiatives.

EDUCATION

Bachelor of Software Engineering
Minor in Machine Learning • Comsats University • Pakistan • 2024

SKILLS

Frontend : Html , CSS , Javascript , React js , Tailwind , Redux , Rest APIs ,GraphQl , OAuth

Technical Skills: Git, Version Control

Database : Firebase **,** MongoDb , MySQl , MSSQL
